WHO WE ARE

Project & Technical Service Delivery

Pamela Edwards, ACMA has extensive business and technical expertise, is a qualified accountant, a trained project manager and business systems analyst. Her expertise includes project rescue and vendor management.
pamela.edwards@accountableeffect.co.uk

International & Board Level IT Strategy

For board level or international strategic management of IT, ensuring planned benefits from acquisitions are delivered promptly, along with IT Integration and Re-structuring, our clients rely on Frank Vielba, CEng. Frank is fluent in Spanish, Italian and French.
frank.vielba@accountableeffect.co.uk

Technical Architecture

Technical Architecture can make or break business applications. John Kat, BA(Econ), has significant expertise in delivering complex technical architecture including global and enterprise wide data warehousing. To discuss your technical architecture plans contact
john.kat@accountableeffect.co.uk

Service Delivery, Business Processes and Change Management

Business Service delivery expertise in both the Public and the Private Sector is provided by Elizabeth Consalvi. Process Analysis and the Management of Change are her areas of expertise, together with reviewing public sector organizations for compliance with the Government's mandatory modernization standards.

CLIENT APPRECIATION - don't take our word for it, read what others have said !

"A strong business orientation ensured we got exactly what we needed. Barriers between IT and the business were successfully broken down and resulted in actual business value." **First National Bank Plc**

"Getting to grips with KPMG's rigorous methodology brought a valued discipline and structure to the project." **KPMG**

"Extensive business and IT skills ensured the successful design and implementation of many complex functions; most notably in underwriting and reinsurance." **Medical Sickness**

"The project was approached with intelligence, enthusiasm and technical expertise and was completed on time and to budget." **Hill Samuel**

"Delighted with the quality of work and given the opportunity would not hesitate in securing Accountable Effect's services again for further work." **Cable & Wireless plc**

"Discovered that we did not have to do everything ourselves." **Phoenix Research**

We want your business and are prepared to work for it.
